★★★★★

Implementing Inspeq AI's Guardian and Governance Platform transformed our chargeback process. We saw marked improvements in accuracy, reliability, and compliance, effectively tackling challenges in model performance and regulatory adherence. Their comprehensive evaluation framework was crucial for our success

The Inspeq Edge

Adhering to Regulatory Demands

Inspeq AI equips organizations to meet evolving regulatory requirements by providing advanced monitoring tools.

Avoid Reputational Damage and Comply with **the EU AI Act, SB-942 Transparency Act, and UK AI Principles**

Independent Evaluation Framework

Unlike traditional platforms, Inspeq doesn't rely on LLMs to evaluate LLMs.

Instead, it leverages advanced NLP and ML techniques for precise, unbiased results

Built for Scale

Inspeq AI's modular architecture grows with your business, enabling adoption across geographies and departments without compromising performance
